## Will Signed Friday.

The last papers were not signed until yesterday morning (Friday), but the arrangements were all made. In the meantime no relief came, and the sapping of time no relief came, and the sapping of the patient's vitaiity continued. The only food he could take was laben, a milk preparation, such as is used for babies, and he frequently revolted against this. Sunday last his condition became so alarming that the family decided to re-move him to Beaver. For a day or two there was improvement, and hope again pervaded the stricken family, but it was merely temporary. Quay showed all the stoicism of an In-

Relapsed on Sunday.

The relapse which alarmed the family on Sunday last at Morgansea recurred again on Thursday night, and the alarm was so serious that the Pittsburg specialists were called in at midnight. Friday he railied again and was able to converse with ex-Senator J. Donald Cameron, but never told anybody what he wanted. That same night the absent members of the family were summend and every preparation for the end gradually came, stupor, high pulse and weakened respiration marking the approach of death.

In going to Morgansea, where his brother, Jerome Quay, was superintendent of the Western Pennsylvania Reform School, the thought was that in that place he could be visited by none but his physicians and the family. His condition after arriving there was such as to give no hope to the family, although he appeared brighter some days. It was realized that the only chance of recovery Senator Quay had was to restore some life and activity to his stomach, which absolutely refused to perform its functions. Quay himself told them all it was useless; he had run his course and was gradually slipping away. Ten days ago he began the arrangement of his personal affairs, looking toward the finality.

Young Quav received an scademic education. From Indiana he went to Beaver, which has been his home for about fifty-five years.

After receiving a thorough preparation he entered Jefferson College, Washington county, from which he was graduated at the early ago of seventeen years. He then went to Pittsburg, where, in 1850, he began the study of law. Before he completed his legal studies he wished to see something of the country, and accompanied a friend to his home in Mississippi.
